responsibility for everything we do, if you approve it, and that's the only way you're going to have any idea what we do. Now I don't want to be obnoxious about what I, I want to be specific I'm rather adamant about it. You draw a line in which there is no line, and that I'm not willing to accept. I don't ask you people to put absolute faith in me because I really don't have anything to do with the things I'm supposed to do, in every case it's almost unanimous what I do they tell me to do, and I never done anything that they didn't tell me to do and I never will, so I'd like to have this body go on record when making a motion that everything we do we send back to this body for your approval. The pay-rolls, and every expenditure of money because that's the way it ought to be. You ought to know what your spending this money for and today you don't have the remotest idea, what your spending the money for and that's that, and I don't ask for that kind of trust in me as the Chairman, or the committee, and I would hope that somebody would make the motion that everything we do that requires an expenditure of over a hundred dollars or whatever you want to say, every action ~~the~~ employment of people who are beyond that of nominal ordinary employees, you people together with us accept the collective responsibility for the expenditure of the people's money. That's what I'd like to have you do, but until you do it, then I don't think the body of the Executive Council or the Chairman are subject to any criticism, because of something you think is wrong that you may become allergic to along time after it happens, I don't believe in counter punches, they don't serve any good purpose, so I hope that now is the time or anytime that you make a motion to have the Executive Council report to you for your approval everything of any material judgement we make. That's the way I'd like to have it.

SPEAKER: Is there any further discussion? If not are you ready for the question. The question is the adoption of or the rejection of the Carpenter amendment. All those in favor, does anybody want to hear the amendment read? The Clerk will please read the amendment.

CLERK: Amendment read.
